## CATCH MICHELLE AT THESE UPCOMING EVENTS:

## Welcome to MLA Michelle Mungall's Monthly Newsletter

### BC Hydro Fish & Wildlife Compensation Program

On the last day of the Fall Legislative session, I again asked the Minister of Energy and Mines to reconsider cuts to BC Hydro that will see the Columbia Basin Fish & Wildlife Compensation Program (FWCP) office shut down. This follows a month of waiting for a response to [a letter](#) I sent the Minister on this issue Oct 18th. To view the video transcript of Question Period, [click here](#).

### Critic for Advanced Education

The last two weeks in the House saw several private members bills be introduced, including one of mine. Called the *Private Career Training Institutions Amendment Act*, this bill will strengthen protections for students in private post-secondary education and thereby enhance our domestic and international reputation as a desirable destination of choice for post-secondary students. [Click here](#) to view the video transcript .

### BC HST

On November 21st in the House, my colleagues and I put forth a motion for the Liberal Government to fast track the elimination of the Harmonized Sales Tax. Waiting 18 months to see the this tax extinguished will continue to have a negative impact of British Columbian business and industry. [Watch the video transcript](#).

### Cresto Gnome & Buying Local

This past month saw the launch of my 'Buy Local' campaign for the Creston Valley. Cresto Gnome, hailing from Crestaramics, has been busy this holiday season taking part in local events, like the Santa Claus Parade, and continues to enjoy all that this rich area has to offer. You can follow Cresto on [Twitter](#) and [Facebook](#) or [click here](#) for more information.

Michelle Mungall, MLA

Is Hosting a  
*Community  
Holiday Lunch*

At Our Daily Bread 812 Stanley St. Nelson

Wednesday Dec 14
